HPU DPT Class of 2021:

We are excited for your arrival!

Welcome to your university and your department of physical therapy! I am sure you are feeling an array of emotions and am hoping that your overwhelming feeling is excitement! We are as excited to see you as you are to be here. It is our collective mission to help you develop into the ultimate physical therapy professional. In order to achieve our mission, we are counting on you to study hard, accept that your growth will be painful at times, and look out for this community, including each other. Now, let’s get started!

My cell is 336-906-2133 if you need me.

Remember that you are joining a family of collaborative, hard-working visionaries who challenge the status quo and care for others more than ourselves.

Welcome to the family!

Eric J Hegedus PT, DPT, PhD, OCS
Founding Chair and Professor
