From the President: Dr. Nido Qubein

To the High Point University Community –

It is up to each one of us to help foster a secure and supportive environment at High Point University — an environment where individuals can feel safe to visit, learn, work and live. Primary to this goal are the principles of responsibility and respect. These values are essential to any community, and serve as the foundation for the success and productivity of our students, faculty and staff. Safety on campus is one of the highest concerns. A truly safe campus can only be achieved through the cooperation of everyone. This publication contains information about campus safety measures and statistics about crime in our University community. It also describes our efforts to combat alcohol and drug abuse. Please take the time to read it and to help us foster a more caring and safe environment.

Dr. Nido Qubein, President

ANNUAL SECURITY REPORT

PREPARATION OF THE ANNUAL SECURITY REPORT AND DISCLOSURE OF CRIME STATISTICS

The High Point University Security department prepares this report in compliance with the Jeanne Clery Disclosure of Campus Security and Crime Statistics Act using information maintained by High Point University Security, information provided by other University offices such as the Office of Student Life, other Campus Security Authorities and information provided by local law enforcement agencies.

This report provides statistics from the previous three years regarding reported crimes that occurred on campus, and in certain off-campus buildings or property owned, leased or controlled by High Point University. This report also includes institutional policies concerning campus security, such as policies regarding sexual assault, alcohol and drugs.

High Point University distributes an electronic notice of the availability of this Annual Security and Fire Safety Report by October 1st of each year to the University community. Anyone, including prospective students and employees, may obtain a copy of this report by contacting the High Point University Security at 336-841-9112 or by visiting <http://www.highpoint.edu/safety/>.

REPORTING CRIMES AND OTHER EMERGENCIES

The University offers multiple ways for campus community members and visitors to report crimes, serious incidents, and other emergencies to appropriate University officials. It is critical that all incidents be reported to security for the safety of the entire University community to ensure a timely investigation and appropriate follow-up actions, including issuing a timely warning or emergency notification.

Voluntary, Confidential Reporting

We encourage University community members to report crimes promptly and to participate in and support crime prevention efforts.

If you are the victim of a crime, or want to report a crime, but do not want to pursue action within the University or criminal justice system, we ask that you still consider filing an anonymous report. Depending upon the circumstances of the crime you are reporting, you may be able to remain anonymous. Reports filed in this manner are counted and disclosed in the Annual Security and Fire Safety Report.

Reporting to University Security

We encourage members of the University community to report all crimes and other emergencies to Security in a timely manner. Security has a dispatch communication center that is available by phone at 336-841-9111/336-841-9112 or in person twenty-four hours a day at the North College Administration building, located at 1911 North Centennial Street, High Point, NC 27268. Security should be notified of every crime to assure the University can assess security concerns and so they may inform the community if there is a threat to the University community.

Emergency Call-Boxes (Campus Assistance and Response to Emergency – CARE Points)

The University has installed more than 70 CARE Points throughout the campus, some equipped CCTV. CARE Points provide direct voice communications to known locations to the Security Communication Center (SECOM). CARE Points are checked regularly to ensure they are functioning properly.

Anonymous Reporting

If you are interested in reporting a crime anonymously, you can utilize the High Point University Security's Crime Stoppers program that can be accessed through the Department's website: <http://www.highpoint.edu/safety/crimestoppers/> or by submitting a tip through LiveSafe, the mobile app, which can be downloaded for free. Security does not attempt to trace the origin of the person who submits this form unless such is deemed necessary for public safety. Persons may also report crimes through the High Point Police Crime Stoppers at 336-889-4000 or via the web site at <http://www.high-point.net/police/>.

Reporting to Other Campus Security Authorities

While the University prefers that community members promptly report all crimes and other emergencies directly to Security some may prefer to report to other individuals or University offices. The Clery Act recognizes certain University personnel as "Campus Security Authorities (CSA)." The Act defines these individuals as "official of an institution who have significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings. An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution."

The University has identified several hundred CSAs and have designated the following offices as places where campus community members may report crimes:

Pastoral and Professional Counselors

According the Clery Act, pastoral and professional counselors who are appropriately credentialed and hired by High Point University to serve in a counseling role are not considered Campus Security Authorities when they are

acting in the counseling role. University encourages pastoral and professional counselors to notify those whom they are counseling of the voluntary, confidential reporting options available to them.

ABOUT THE SECURITY DEPARTMENT

The mission of the High Points University Security Department is to care for and serve all those who enter upon the lands of the University while preserving their property and University assets.

Role, Authority, and Training

The High Point University Security Department protects and serves the campus community 24 hours a day, 365 days a year. The department includes safety and security programs including Emergency Management, Investigations, Crime Prevention, Security Technology, Threat Assessment, Special Event Management, Executive Protection and Parking.

Working Relationship with Local, State, and Federal Law Enforcement Agencies

The High Point University Security Department maintains a cooperative relationship with the High Point Police, State Highway Patrol and surrounding law enforcement agencies. This includes interoperable radio capabilities, training programs, special event coordination, and investigation of serious incidents.

High Point University has a Memorandum of Understanding (MOU) with High Point Police Department to aid efficient investigative operations on the HPU campus with regards to Title IX sexual violence complaints/allegations. This MOU is intended to comply with the Clery Act and the Violence Against Women Act amendments to the Clery Act.

Crimes Involving Student Organizations at Off-Campus Locations

High Point University Security relies on its close working relationships with local law enforcement agencies to receive information about incidents involving High Point University students and recognized student organizations, on and off campus. In coordination with local law enforcement agencies, Security will investigate incidents occurring on campus. If Security learns of criminal activity involving students or student organizations, it will coordinate with the appropriate external law enforcement agency and forward information about the situation to the Office of Student Life, as appropriate.

The University requires all recognized student organizations to abide by federal, state, and local laws as well as University policies. The University may become involved in the off-campus conduct of recognized student organizations when such conduct is determined to affect a Substantial University Interest (as defined in the University Honor Code).

TIMELY WARNINGS

I. PURPOSE

The purpose of this policy is to ensure the issuance of Timely Warnings regarding crimes reported on or near campus that pose a serious or ongoing threat to the campus community. This policy complies with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) by establishing procedures for the University regarding the circumstances and delivery of Timely Warnings of serious or ongoing threats.

II. PROCEDURE

- A. The decision to broadcast a Timely Warning will be made on a case-by-case basis in light of the available facts, including factors such as the nature of the crime, the continuing danger or risk to campus community and the possible risk of compromising law enforcement efforts. The intent of the notification is to aid in the prevention of similar crimes by alerting the community about the incident and providing information on what actions people can take to diminish their chances of being victimized.
- B. Crimes on or near campus which may prompt the issuance of a Timely Warning include, but are not limited to: criminal homicide, sexual offenses, aggravated assault, robbery involving force or violence, and arson.
- C. NOTIFICATION PROCESS
 - 1. The senior security officer on duty should inform the Chief of Security of any crime that may pose an ongoing or serious threat to the personal safety of students, faculty, staff and/or visitors.
 - 2. The Chief of Security will contact the Vice President for Facilities & Auxiliary Operations to consult to determine if a Timely Warning should be issued on a case-by-case basis as referenced in Section II-A.
 - 3. If practical, the Vice President for Facilities & Auxiliary Operations will notify the Office of the President, Executive Vice President, Senior Vice President for Communications, and Senior Vice President for Student Life prior to transmission.
 - 4. If a Timely Warning is to be issued, the Chief of Security or a designee will develop a notice which may contain the following information when available: nature of the crime or immediate threat, location of the incident, time of the incident, description of any suspect(s), steps community members should take, and where to seek additional information.

5. The Timely Warning will be reviewed by at least one other person prior to the prompt transmission to the University community via blast e-mail to all students, faculty and staff.
6. Updates to the University community about any particular case resulting in a Timely Warning may be distributed via blast e-mail or other University communication channels.
7. The Security Department will maintain records of all Timely Warnings which will include the nature, date, time and general location of the incident.

EMERGENCY NOTIFICATIONS

High Point University is committed to ensuring the campus community receives timely, accurate and useful information in the event of a significant emergency or dangerous situation on campus or in the local area that poses an immediate threat to the health and safety of campus community members. High Point University uses the emergency notification system (Panther Alert and Panther Advisory). The Panther Alert/Advisory program is an opt-out emergency notification service available to students, staff and faculty. All members are automatically enrolled.

Panther Alerts are a full activation of every communication channel. Alerts are broadcast as a voice message, text message, and email and are also sent to campus phones, computers and intercoms in certain buildings, HPU social media (Facebook, Twitter and homepage) and electronic message boards. The outdoor siren/PA system may be activated for Panther Alerts as well.

Panther Advisories are broadcast only as a text and email message.

High Point University performs a University-wide test of the emergency notification system at the beginning of each semester. The following procedures outline the process the University uses when issuing emergency notifications.

Procedures to notify the campus community:

In the event of a situation that poses an immediate threat to members of the campus community, the University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of emergency notification to all or a segment of the campus community. Methods of communication include the emergency notification system (Panther Alert & Panther Advisory), the University's email system, buildings' fire alarm systems, verbal announcements, and public address systems (Intercom systems in select buildings, bull horns and PA systems on Security vehicles). The University will post updates during a critical incident on the HPU homepage. If the situation warrants, the University will establish a telephone call-in center to communicate with the University community during an emergency situation.

Confirming the existence of a significant emergency or dangerous situation and initiating the emergency notification system

The Security Department and/or other campus first responders may become aware of a critical incident or other emergency situation that potentially affects the health and/or safety of the campus community. Generally, campus first responders become aware of these situations through SECOM, the University's 24/7 warning point and dispatch center.

Once first responders confirm that there is, in fact, an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the campus community, first responders will notify supervisors in the HPU Security Department or other authorized University office to issue an emergency notification.

The University's authorized representatives will immediately initiate all or some portions of the University's emergency notification system. If, in the professional judgment of first responders, issuing a notification may compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency, the University may delay issuing an emergency notification. As soon as the condition that may compromise efforts is no longer present, the University will issue the emergency notification to the campus community, as long as there is still a continued threat to the campus safety.

Determining the Contents of the Emergency Notifications:

The University uses templates for a variety of emergencies/hazards anticipated on campus to assist with incident messaging. These templates are designed to be easily manipulated by SECOM to update incident-specific information. If an emergency situation occurs and a template message does not apply, the message will be crafted by the individual(s) responsible for authorizing the broadcast with desired input from the Office of Communications when practical. In those cases where there are no template messages in the system, the individual authorizing the notification will develop the most succinct message to convey the appropriate information to the community. The goal is to ensure the campus population is aware of the situation and that they know the steps to safeguard their personal and community safety.

Enrolling in the University's ENS:

The Panther Alert and Panther Advisory emergency notification system is an opt-out system. All members of campus are automatically enrolled to receive alerts. Members of campus are encouraged to update their contact information. Information on how to update contact information can be found online at: www.highpoint.edu/safety/emergency-mass-notification/.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

Emergency Management at High Point University

The Manager of Environmental Health Safety & Preparedness is responsible for the Comprehensive Emergency Management Plan (CEMP). This plan is designed to be an all-hazards disaster response and emergency management plan that complies with FEMA guidelines for Higher Education that includes planning, mitigation, response, and recovery actions.

Priorities:

- Life safety, infrastructure integrity, and environmental protection during an emergency
- Coordination with university departments to write, maintain, test, and exercise the CEMP
- Cooperation, Integration, and Mutual Aid with local, state and federal planning, response, and public safety agencies and their CEMPs.

A summary of the University's emergency response procedures is located at <http://www.highpoint.edu/safety/>. Included at this webpage is detailed information regarding the University's emergency notification policy, including how to update contact information in the emergency notification system to ensure you receive emergency notices on University and personal phones.

Drills, Exercises and Training

To ensure the University's emergency management plans remain current and actionable, the University will conduct periodic preparedness exercises. These exercises may include tabletop, functional or full-scale exercises. The University conducts after-action reviews following all emergency management exercises and significant real-world activations.

Emergency Notification

High Point University is committed to ensuring the campus community receives timely, accurate, and useful information in the event of a significant emergency or dangerous situation on campus or in the local area that poses an immediate threat to the health and safety of campus community members. High Point University uses the emergency notification system *PANTHER ALERT/ADVISORY*. The *PANTHER ALERT/ADVISORY* is an emergency notification service available to all members of campus. The *PANTHER ALERT/ADVISORY* can be used to send emergency messages within minutes of the occurrence of an incident. Alerts sent by *PANTHER ALERT/ADVISORY* are simulcast to the University community via our news wire at www.highpoint.edu, High Point University's Facebook page, and Twitter.

Procedures Used to Notify the Campus Community

In the event of a situation that poses an immediate threat to members of the campus community, the University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of emergency notification to all or a segment of campus community. These methods of communication include the mass notification system *PANTHER ALERT/ADVISORY*, the University's e-mail system, siren/PA towers, and verbal announcement within some buildings and public address system on police/security vehicles. The University will post updates during a critical incident on the homepage as social media.

Confirming the Existence of a Significant Emergency or Dangerous Situation and Initiating the Emergency Notification System

The HPU Security Department and or other campus first responders may become aware of a critical incident or other emergency situation that potentially affects the health and/or safety of the campus community. Generally, campus first responders become aware of these situations when they are reported to the HPU security communications (SECOM) or upon discovery during patrol or other assignments.

Once first responders confirm that there is, in fact, an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the campus community, first responders will notify supervisors in the HPU Security Department or other authorized University office to issue an emergency notification.

The University's authorized representatives will immediately initiate all or some portions of the University's emergency notification system. If, in the professional judgment of first responders, issuing a notification potentially compromises efforts to assist a victim or to contain, respond to, or otherwise mitigate the threat, the University may elect to delay issuing an emergency notifications. As soon as the condition that may compromise efforts is no longer present, the University will issue the emergency notification to the campus community (as long as the threat still exists).

Determining the Contents of the Emergency Notification The office responsible for authorizing the emergency notification will, in concert with University and local first responders, determine the contents of the notification. The University has developed a wide range of template messages addressing several different emergency situations. The individual authorizing the alert will select the template message most appropriate to the on-going situation and modify it to address the specifics of the present incident. In those cases where there are no pre-determined template messages in the system, the individual authorizing the alert will develop the most succinct message to convey the appropriate information to the community.

The goal is to ensure individuals are aware of the situation and that they know the steps to take to safeguard their personal and community safety.

Procedures for Disseminating Emergency Information to the Campus Community

The Emergency Health Safety and Preparedness Manager may initiate university's emergency mass notification processes prior to or during violent or hazardous incidents that pose immediate danger to the campus community to notify campus community members immediately in order to reduce the likelihood of injuries or casualties. Immediate notification to the campus about a seriously violent or extremely hazardous incident can be accomplished through a variety of communications methods to include the use of text/voice messaging and sirens. When emergency mass notification systems are activated using the siren and text/voice messaging, university officials will notify the City of High Point of the emergency situation, its location and will likely request campus members to protect themselves by evacuating the affected area if it is safe to do so and/or by employing the "shelter-in-place" concept.

"Shelter-in-place" means to take immediate shelter wherever you happen to be at the time of a "shelter-in-place" notification– in campus housing, in an academic or administrative building, etc. Community members should remain in a "shelter-in-place" status until the "All Clear" is communicated by emergency

response personnel via an emergency rapid communications system(s). University authorities may instruct you to "shelter-in-place" if a condition exists that is potentially life threatening and poses an immediate threat to the health and personal safety of the campus community. Immediate threats would include, but are not limited to; active shooter incidents, mass violent acts, tornadoes, earthquakes, terrorist attacks, and hazardous materials incidents.

Enrolling in the University's Emergency Notification System

Students, faculty and staff are automatically enrolled in the Emergency Notification System, e2 Campus. Personal contact information can be updated through the HPU Portal by visiting: my.highpoint.edu.

SECURITY AND ACCESS TO UNIVERSITY FACILITIES

Administrative buildings are open from 7:00 a.m. until 5:00 p.m., Monday through Friday, and academic buildings generally are open from 7:00 a.m. until 6:00 p.m. Academic buildings are not scheduled to be open on weekends. Access to individual classrooms and laboratories is limited to those enrolled in the courses meeting there. Likewise, access to most programs is limited to those enrolled in the program or otherwise authorized access, via HPU passport cards. This gives the HPU passport holders 24 hours access as long as they have authorization.

Special Considerations for Residence Hall Access

At High Point University, all residence halls operate under a computerized access control system. HPU passport cards are coded so that only students who live in a particular hall are authorized electronic access entry to that hall; the system denies entry to all unauthorized persons. All residence hall exterior doors remain locked 24/7. When any exterior door is left ajar for over three minutes, an alarm is activated in SECOM as a "Door Held Open" alarm. Officers are dispatched to open doors and are responsible for checking and securing doors, when needed. Residents are encouraged to lock their suite/room doors even when in their rooms.

Only residents and their visitors are permitted in the living areas of the residence halls. It is the resident's responsibility to ensure that his/her visitor is aware of the University and residence hall policies. Visitors are not provided with room keys or passport cards. Visitors must be escorted by a resident of the building at all times. It is the responsibility of residents and staff members to challenge or report individuals who are not recognized as residents or the visitor of residents. When Security receives a report of an unescorted person in a residence hall, an officer is dispatched to identify that person. Security deploys more officers during the evening and nighttime hours. Residence Assistants (RAs) are assigned to patrol the residence hall areas from 11:00 p.m. until 1:00 a.m. Sunday thru Thursday and 7:00 p.m. to 3:00 a.m. Friday and Saturday.

Crime Prevention through Environmental Design (CPTED)

High Point University is committed to applying CPTED principles. University landscaping and lighting are designed with a security and safety focus. Sidewalks are designed to provide well-traveled, lighted routes from parking areas to buildings and from building to building. The campus perimeter is highly illuminated via mindfully placed City lighting to provide lighted routes from parking areas to buildings and from building to building.

Campus members are encouraged to promptly report any security concern, including concerns about locking mechanisms, lighting, or landscaping to Security or Campus Enhancement.

CARE ALERT

The goal of the HPU Care Alert program is to foster an environment where students can be successful through individual support and care via coordination of HPU resources. Care Alert staff reach out to students to discuss issues they may be facing and to devise a strategy to help address these issues. Students may continue to meet with Care Alert staff on a regular basis, be referred to counseling services or offices on campus, or decide that they have received sufficient information after the first meeting.

Referrals to Care Alert may be kept anonymous. Email care@highpoint.edu to make a referral. Anonymous submissions can be made at the following website: www.highpoint.edu/studentlife.

DOMESTIC/DATING VIOLENCE AND PHYSICAL ASSAULT

Domestic Violence includes felony or misdemeanor crimes of violence committed by the current or former spouse or intimate partner of the complainant, by a person the complainant shares a child in common, by a person co-habituating or who has co-habitated with the complainant, spouse or intimate partner; by a person who is cohabitating with, or has cohabitation with, the complainant as a spouse or intimate partner; by a person similarly situated to a spouse of the complainant under the domestic or family violence laws of the State of North Carolina; victim who is protected from the person's act under the domestic or family violence laws of the jurisdiction in the State of North Carolina (2015 Clery Center for Security on Campus).

Dating Violence is controlling abusive and/or aggressive behavior by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship shall be determined based on the reporting party's statement and with consideration of the length of the relationship, and the frequency on the interaction between the persons involved in the relationship. For the purpose of this definition, dating violence includes, but is not limited to sexual or physical abuse or the threat of such abuse. Dating violence does not include acts covered under the definition of domestic violence (2015 Clery Center for Security on Campus).

Sanctions. Where persons are found responsible of domestic and/or dating violence, they should expect sanctions ranging from but not limited to the following: warning, fines, civility education, community service, paper, disciplinary probation, residential and/or campus bans, suspension, expulsion, withholding or revoking a degree, no contacts, interim suspension, completion of an assessment and following the recommendations of that assessment, random drug testing, alcohol and controlled substance education. The university vigorously addresses instances of physical assault and endeavors to preserve a victim's confidentiality.

Stalking is defined as engaging in a course of conduct directed at a specific person that would cause a reasonable person to; fear for their own personal safety; or the safety of others; or suffer substantial emotional distress.

Sanctions. In the event that charges of stalking cannot be informally resolved, the perpetrator(s) should expect sanctions ranging from a warning to expulsion.

PROGRAMS TO PREVENT DATING VIOLENCE, DOMESTIC VIOLENCE, SEXUAL ASSAULT AND STALKING

HPU uses comprehensive, intentional, and integrated programming, initiative, strategies, and campaigns intended to end dating violence, domestic violence, sexual assault, and stalking that:

1. Are culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research or assessed for value, effectiveness, or outcome; and
2. Consider environmental risk and protective factors as they occur on the individual, relationship, institutional, community, and societal levels

Programs to prevent dating violence, domestic violence, sexual assault, and stalking include both primary prevention and awareness programs directed at incoming students and new employees and ongoing prevention and awareness campaigns directed at students and employees.

SEXUAL MISCONDUCT POLICY

High Point University expects all members of its community to act in a respectful and responsible manner towards one another. Acts of sexual misconduct including sexual harassment (stalking, cyberstalking or relationship violence) non-consensual contact, non-consensual intercourse (sexual assault), exploitation and other gender based offenses are classified as crimes of violence that are subject to prosecution through both university and local law enforcement authorities. This policy covers complaints of alleged sexual misconduct.

Defining Rape and Sexual Assault

Sexual Assault. Any sexual act directed against another person, without consent of the victim, including instances where the victim is incapable of giving consent.

- a) **Rape** is the penetration, no matter how slight, of the vagina or anus, with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. This offense includes the rape of both males and females.
- b) **Fondling** is the touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental incapacity.
- c) **Incest** is sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited.
- d) **Statutory Rape** is sexual intercourse with a person who is under the statutory age of consent set forth by North Carolina Statue 14-27.7A. Statutory rape or sexual offense of person who is 13, 14, or 15 years old.

While these definitions are clear, victims often have difficulty reporting a sexual assault for numerous reasons such as knowing the perpetrator, fear of retaliation, fear of parents knowing about the incident, fear of getting in trouble with law enforcement. Despite these concerns, it is vital to report such incidents in order to get help.

Sanctions: Where persons are found responsible of domestic and/or dating violence, they should expect sanctions ranging from but not limited to the following: warning, fines, civility education, community service, paper, disciplinary probation, residential and/or campus bans, suspension, expulsion, withholding or revoking a degree, no contacts, interim suspension, completion of an assessment and following the recommendations of that assessment, random drug testing, alcohol and controlled substance education. The university vigorously addresses instances of physical assault and endeavors to preserve a victim's confidentiality.

HPU reserves the right to proceed with a hearing as deemed appropriate when the complainant/respondent are not able to be on campus.

CONSIDERATIONS AFTER A RECENT SEXUAL ASSAULT

1. Seek medical attention immediately so that you know all of your options for the prevention of pregnancy and/or sexually transmitted infections. Even if you are not pursuing criminal charges, it is important to take care of your general health and assure that no physical injuries occurred. You are not required to pursue criminal charges at the time of the evidence collection. Should you chose to pursue criminal charges, evidence collected within 72 hours of the assault provides the greatest sample.
2. Sexual assault is a crime as well as against HPU conduct policy. There is a difference between reporting to the local police department versus High Point University. When a sexual assault occurs and is reported to HPU personnel (security, RA, RD, staff and/or faculty), these individuals are required to report the matter to the appropriate authorities, Title IX Director or Investigator, and a full investigation will be conducted immediately. We encourage victims to report sexual assault crimes to High Point Police so they can investigate the matter under North Carolina state law for a criminal investigation. HPU Title IX investigations are not criminal investigation. Should the alleged perpetrator elect to appeal the charges made against them, a priority conduct hearing will be held. Students may review the process with the Director of Student Conduct.
3. Consider talking with a counselor. If you wish to speak to someone confidentially, there are resources on campus as well as off campus. It is your choice to talk to someone about what happened.
4. If you want to avoid contact with the alleged perpetrator, interim measures will be made in regard to academic, social and living situations.
5. Retaliation by alleged perpetrator and/or friends and acquaintances. As soon as a student reports an alleged sexual assault and names the alleged student, the Office of Student Life will contact that individual and investigate the alleged event. Involved students will be advised that retaliation in any form (social media, written, indirect contact by friends) will not be tolerated and the student exhibiting this behavior risks immediate removal from the residential community.

Our Commitment to Addressing Sexual Assault/Rape

High Point University does not tolerate sexual misconduct or abuse, such as sexual assault, rape or any other forms of nonconsensual sexual activity. Sexual misconduct in any form violates the Student Code of Conduct, University policies www.highpoint.edu/studentlife/studentguidetocampuslife/ and may violate Federal and State Laws.

Violations of this policy are subject to disciplinary sanctions through the Office of Student Conduct and/or those outlined in applicable University policies (please refer to Policy on page 103 of the Student Guide to Campus Life covering SEXUAL ASSAULT, RELATIONSHIP AND DOMESTIC VIOLENCE, AND STALKING. Please visit www.highpoint.edu/studentlife/studentguidetocampuslife/ to review procedures, policies and protocols for reporting and addressing allegations of student sexual misconduct. The University provides the following rights to all sexual assault victims:

- Student Life employees will be available to all victims of crimes. They will provide support and guidance to victims and enable them to receive advocacy, information, and assistance both judicially and academically.
- On campus counseling services are available to students through Counseling Services.

University Procedures for Responding to Reports of Sexual Assault

If you or someone you know is the victim of a sexual assault, the victim has several rights, including:

- The right to report the incident to the Security or local authorities. The University will assist victims in notifying local police if that is their request. Filing a police report does not mean the victim must pursue criminal charges. The victim maintains his or her rights throughout the process.
- In addition to the campus services listed below, there are also several community service organizations that can provide counseling, mental health, and other related services to sexual assault victims. The Office of Student Life can assist with connecting victims to these services. Please note that not all services are available at on campus.

University Disciplinary Procedures in Sexual Assault Incidents

Disciplinary Procedures: In the event of sexual assault, the University will follow those disciplinary procedures described in detail in the chapter entitled "The University Conduct System" which is published in the *Student Guide to Campus Life*. The student handbook is available from the Office of Student Life Slane Student Center or at www.highpoint.edu/studentlife/studentguidetocampuslife/. The Senior Vice President for Student Life, Assistant Vice President for Student Life or Director of Student Conduct will oversee the administration of such procedures.

Where a complaint exists, both the complainant and the respondent:

- are entitled to the same opportunities to have others present during a disciplinary proceeding (see the chapter on the University Conduct system which appears in the *Student Guide to Campus Life* www.highpoint.edu/studentlife/studentguidetocampuslife/ and which is available from Slane Student Center;
- will be informed of the University's final determination with regard to disciplinary proceedings and of any sanction(s) imposed against the respondent.

Pursuant to Sec. 493 (a) of the Higher Education Opportunity Act, at the written request of the victim (or next of kin if student is deceased), the University will disclose the report on disciplinary proceedings conducted against an alleged perpetrator of any violent crime or a non-forcible sex offense to the alleged victim upon written request.

Personal Safety

Despite security and law enforcement's efforts, serious crimes do occur on campuses. It is important to report any suspicious activity to security or police and always remain alert and vigilant.

One of the most unreported crimes is Sexual Assault. We provide the following information to assist those from becoming a victim of a crime.

To help you be more alert and aware of your environment in an effort to prevent crimes on campus, here are personal safety tips:

- Always lock your door when you leave your room, even if only leaving for a minute.
- Never give your key to another person. If at any time your key is lost or misplaced, immediately notify Student Life or security.
- Do not permit anyone you do not know to "tailgate" behind you into any access-controlled building, especially your residence hall.
- Share your class/work schedule with a close friend, as well as with your family.
- Never open your door without verifying who is on the other side.
- When possible, travel in groups, especially after dark.
- Secure money or valuables in a diversion-type "safe" (for example, a faux drink can) or a lockable safe/box.
- Inscribe your state's driver's license number into all valuables, e.g. NJ 12345678.
- Record all the serial numbers of your valuables.
- Program the emergency campus number (336-841-9111) into your phone.
- Never take your personal safety for granted. Be vigilant and cautious at all times. Know your environment.
- Never be embarrassed about calling for help or alerting others if you feel threatened or uncomfortable.
- Take advantage of our "Trolley Transportation." If you can't find parking close to your residence hall and prefer not to walk to your hall, call security for a ride.
- Know where the CARE (Campus Assistance and Response to Emergency) points are located. The campus has over 70 of these blue call boxes strategically located throughout the campus. When the button is pushed, the security dispatcher automatically knows your location.
- Don't invite anyone to campus that you do not trust.
- If you see something, say something...don't assume someone else will do it.

Sexual Assault Prevention Education Programs

Educational Prevention Programs: The Office of Student Life is assigned responsibility for coordinating educational programs and activities designed to prevent rape, acquaintance rape and/or other forcible or non-forcible sexual offenses, including the use of drugs designed to induce or enhance sexual activity which is either unwanted or unknown. In the administration of this responsibility, the Office of Student Life will be assisted by Security and Student Health Services.

In an effort to educate students about sexual assault and proper reporting mechanisms, High Point University utilizes the Haven Educational Program. Haven is an online educational program that focuses on making students aware of what it means to be sexually assaulted and what to do if they or someone they know has been involved in sexual misconduct. Haven utilizes proven prevention educational strategies to help students understand the issue of sexual assault. All students are required to complete Haven training annually

Notification: Students who have been sexually assaulted should notify one of the following University officials immediately: a Security Officer or Dispatcher, Title IX Director, the Senior Vice President for Student Life, the Director of Counseling Services, Resident Director, Resident Assistants or any other Campus Safety Authority (CSA). You may contact the Security Office by calling 9111 from an on-campus phone or 336-841-9111 from an off-campus phone, or you may contact the High Point Police Department by calling 911. You may also report a sexual assault at our website: www.highpoint.edu/studentlife/care-alert/. If you would like for someone other than a security officer to assist you, you should ask the officer/dispatcher to assist you in contacting the person with whom you would like to speak. Although you are encouraged to tell the officer/dispatcher that you are a victim of a sexual assault, you are not required to do so. At your request, a security officer/dispatcher, the Senior Vice President for Student Life or his/her designated representative will contact the local law enforcement agency for you or will assist you in making such contact.

Below is a list of some of the programs available at the University.

- Sexual Assault Awareness – Objective: to make students more aware of sexual assaults.

HIGH POINT UNIVERSITY'S POLICIES GOVERNING ALCOHOL AND OTHER DRUGS

High Point University Alcohol and Drug Policy

The university prohibits the *unlawful* possession of alcohol and illicit drugs by students, faculty, and staff either on university property or at any university sponsored activity. This prohibition extends to activities sponsored by groups or organizations related to the university; and it extends to off-campus professional activities, including professional conferences, where attendance by faculty, staff, or students is sponsored, wholly or in part, by the

university or by organizations related thereto. Furthermore, the university reserves the right to discipline members of the university community who, in other situations, whether on campus or off, are found to be in violation of federal, state, and local laws related to the use of controlled substances.

Federal law requires High Point University to notify annually all faculty, staff, and students of the following:

The University prohibits the unlawful possession, use, manufacture or distribution of alcohol or controlled substances by students, faculty, staff, and guests in buildings, facilities, grounds or property controlled by the University or used as part of University activities. For students, this includes prohibiting the possession and consumption of any beverage containing alcohol in a residence hall room except by individuals who are twenty-one years or older. This also includes prohibiting the presences of students under the age of twenty-one in residence hall rooms where alcohol is present. In addition, the smoking of any material is prohibited in all facilities of High Point University at all locations.

Areas Open to the Public

High Point University prohibits the possession and use of alcoholic beverages in areas open to the public including areas of buildings open to the public.

Private or Closed Areas

The possession and use of alcoholic beverages are prohibited in conference rooms, offices, office reception rooms, closed buildings, and areas of buildings not open to the public or from which the public has been excluded, except: the use of alcoholic beverages, subject to the laws of North Carolina, may be permitted in specific private or closed areas designated by, and with the prior approval of, the appropriate person responsible for the area of request.

Education and Research Areas

High Point University specifically prohibits the use, possession and dispensing of alcoholic beverages in classrooms, lecture halls, laboratories, libraries, research areas, or within buildings, arenas or areas where athletic events, lectures, or concerts are held, during such events or activities. Permission will not be granted to use or possess alcoholic beverages in a facility that is being used for one of the above functions. (Please consult HPU Staff Policies and Procedures Manual Alcohol, Drugs and Controlled Substances as well Policy Student Guide to Campus Life Handbook regarding: Use and Distribution of Alcoholic Beverages, or go online at www.highpoint.edu/studentlife/studentguidetocampuslife, for more information).

Disciplinary sanctions may include: Disciplinary Warning, Disciplinary Probation, up to Suspension or Expulsion from the University. Students residing in University housing may also lose the privilege of living on campus for violating University rules and regulations or conditions of the housing contract. In most cases the Office of Student Life will

also assign developmental and educational interventions designed to promote greater awareness and improved decision-making for students and to further deter future misconduct.

Office of Student Life Alcohol Policy

Alcohol And Illegal Substances

Alcohol Policy

Recognizing that alcohol creates some of the most serious social problems in our society and that the use thereof causes pain and/or death to countless individuals each year, the university recommends abstinence with regard to the use of alcoholic beverages. Cognizant of the availability of and misuse of alcohol in this secular and pluralistic society, the university seeks to inform students about laws governing the use of alcohol; to discourage the illegal use and abuse of alcohol, whether on campus or off; and to educate persons who either misuse alcohol or enable other persons to misuse alcohol. Parents and/or guardians will be notified of all student warnings, infractions, or offenses associated with alcohol

North Carolina General Statutes: 18B-102. All members of the University community are expected to comply with North Carolina statutes prohibiting the use of alcoholic beverages by persons younger than 21 years of age. Specifically, it is against the law:

- to sell or give beer, wine, liquor or mixed beverages to anyone younger than 21 years of age;
- for a person younger than 21 years of age to purchase or possess beer, wine, liquor or mixed beverages;
- to use fraudulent identification or to permit the use of one's identification by another in order to obtain alcohol illegally.

Sanctions: Any person younger than 21 who aids or abets another in violation of the above regulations shall be guilty of a misdemeanor, punishable by a fine of up to \$500, or imprisonment for up to six months or both. Any person 21 years old or older who aids or abets another in violation of the above regulations shall be guilty of a misdemeanor, punishable by a fine of up to \$2,000, or imprisonment or both. Any person who aids or abets another in securing alcohol may be liable for personal injuries or property damages resulting from misconduct by those who are intoxicated. Organizations and officers of such organizations may also have such liabilities. Upon conviction, a report is sent to the North Carolina Division of Motor Vehicles. Any person convicted of violating the above regulations may automatically have his/her driver's license revoked for a period of one year.

University Policy: The University expects members of the University community to abide by state laws governing the use of alcohol; and, therefore, it prohibits the use of alcohol by persons who are younger than 21 either on campus or at campus-related events.

Although the University does not sanction the use of alcohol, and except as indicated *supra*, students who are 21 years old or older may consume alcohol in their rooms in the residence halls provided the door is shut, provided no person under 21 is in the room, and provided legal users conduct themselves in a positive manner. In the event that

alcohol is discovered in student rooms anywhere on campus, and provided neither student is 21 or older, the alcohol will be confiscated, and additional sanctions will be imposed.

Special attention is called to the following:

- Alcohol, whether in original or subsequent to the original containers and regardless of student's age may not be publically displayed on campus;
- Alcohol may not be used as an award or trophy for any event or program of the University or by any University organization, group or individual.
- Where the use of alcohol results in behavior which is disruptive, disrespectful, destructive, loud, or threatening, sanctions up to and including exclusion or termination may be imposed.
- When an individual resides with residents who are under the age of 21, alcohol should not be present in common room areas, such as the living room, bathroom, kitchen or cabinets.
- Students who are under the age of 21 are not permitted to be in the presence of alcohol on campus.
- Students are not permitted to possess alcohol paraphernalia including, but not limited to : beer bongs or funnels, tables that a reasonable person would believe is being utilized for drinking games, or any container or device specifically used to consume alcoholic beverages.
- Common large volume containers, such as kegs, are not allowed on campus or at any organization function off campus. Owners may be charged with distribution. Distribution is not limited to directly providing alcohol to minors but also includes creating an environment in which minors consume.
- Evidence of games leading to rapid consumption of alcohol such as beer pong, flip cup, etc. are prohibited.

University Sanction: Although sanctions are assigned to match the seriousness of the offense, the following sanctions are typical for possession, consumption, presence, or distribution of alcoholic beverages in violation of university policy and serve as a guide for adjudication. Hearing officials may allocate sanctions as they deem appropriate based on the nature of the incident.

Possession/Consumption. Sanctions for the first offense typically include completion of an alcohol prevention program, and parental notification. For the second offense, sanctions typically include \$100 fine, and parental notification and completion of AlcoholEdu, an online alcohol education of program. If a third offense occurs, the fine will be \$200, discipline probation, parental notification, completion of substance use assessment with a licensed clinician and substance education. Further sanctions may include exclusion from campus, suspension, or expulsion.

Alcohol Distribution. Upon the first offense, sanctions for selling alcohol illegally or for illegally distributing alcohol to individuals younger than 21 years of age or facilitating an environment for minors to consume typically include a fine not to exceed \$175 for the first offense, substance education (as warranted), and disciplinary probation. Upon the second offense, students may be suspended from the university for one semester and pay a fine not to exceed \$250.00. In addition, completion of a substance abuse assessment with a licensed clinician may be requisite to consideration for readmission.

Failure to Enforce University Policy, University Recommendations, or North Carolina General Statutes. Where organizations fail to enforce university policies, university recommendations or legal statutes involving the distribution, possession or use of alcohol, sanctions ranging up to suspension or expulsion of the organization may

be imposed. Where appropriate, municipal authorities and/or the national headquarters' recognition of the organization may be notified.

Inappropriate Behavior. Typical sanctions for students involved in anti-social behavior while intoxicated are as follows:

Assault/Abuse of Persons. Persons who abuse persons should expect suspension or expulsion and referral to law enforcement agencies. At the discretion of the Director of Student Conduct, Assistant Director of Student Conduct, Senior Director of Student Life, Assistant Vice President for Student Life, or Senior Vice President for Student Life, alternative sanctions may be imposed. Abuse of persons includes, but is not limited to, assault, battery, intimidation, and insubordination.

Abuse/Destruction of Property. Persons who violate the property rights of others must make restitution within ten (10) days. Typically, minimal sanctions for the first offense include a \$100 fine and /or mandatory referral to the Office of Counseling Services. Sanctions may also include loss of campus housing, disciplinary probation, and referral to law enforcement agencies, suspension, or expulsion.

Upon the second offense, students should expect suspension or expulsion from the university and referral to law enforcement agencies. Where extenuation circumstances exist, alternative sanctions may be imposed by the Director of Student Conduct, Assistant Director of Student Conduct, Senior Director of Student Life, Assistant Vice President of Student Life, or Senior Vice President of Student Life.

Public Drunkenness. Sanctions for typical offenses are the same as those listed for possession/consumption with the potential for additional charges.

Driving while impaired. Sanctions can include a fine not to exceed \$300.00, substance education, parental notification, disciplinary probation, parking privileges suspended for one semester.

Off-campus events: Although the University ordinarily is not in a position to police off-campus events, it should be understood that any person or any group of persons who aids or abets others in securing alcohol may be liable not only for aiding or abetting, but also for personal injuries or property damages resulting from misconduct by those who are intoxicated. Organizations and officers of such organizations may also have such liabilities. Therefore, in part because they are intended to help persons or groups avoid such liabilities, it behooves individuals, groups of individuals or organizations to comply with the following guidelines. Furthermore, should it become evident that individuals, groups of individuals or organizations who/which are members of the University are unlawfully providing alcoholic beverages to under-age individuals or using alcohol in games or as prizes, such individuals, groups of individuals or organizations may be subject to stern disciplinary action by the University. Such action may include the withdrawal of the organizational charter or the expulsion or termination of individuals.

For legal and/or moral reasons, the following guidelines should apply wherever alcohol is available at off-campus events:

- Alcohol should not be provided by organizations or individuals to persons not known to be 21 years old or older;
- The sale of alcohol should be prohibited unless the distributor is licensed by state or local authorities;
- The use of common containers of alcoholic beverages, such as kegs, large bottles, punch bowls, trash cans, ice tubs, refrigerators, *et cetera*, by undergraduates should be prohibited;
- The use of pure grain alcohol by individuals or organizations should be prohibited;
- The use of alcoholic beverages in games should be strictly prohibited;
- The use of alcoholic beverages as a prize should be strictly prohibited;
- Individuals, groups of individuals or organizations who influence excessive and/or harmful consumption of alcohol through games, peer pressure, subterfuge or other activities should know that they are subject to stern disciplinary action both by the University and by external authorities;
- Alcohol should not be available where fewer than 33% of the persons present are 21 years old or older;
- Any organization or group of individuals which sponsors an event where alcohol is available should provide alternative food and beverages during the duration of time when alcohol is available;
- Any individual, group of individuals or organization which sponsors an event where alcohol is available should consider the effects, including noise and parking, upon the community where the event is scheduled. Specifically, such events should not be scheduled where noise pollutes residential communities or where people park on private property other than that of the hosts;
- Litter should not be allowed to accumulate, even temporarily;

Effects of Alcohol Abuse: Even minimal consumption of alcohol may affect behavior, but the abuse of alcohol ordinarily has acute or chronic effects.

Acute. Even low doses of alcohol may have acute effects: (1) most vehicular accidents among persons aged 15 to 24 are related to drinking; (2) aggressive acts, such as abuse of family/friends and acquaintance rape, are almost always related to alcohol abuse; (3) mental functions may be impaired, making it difficult for a person to process and remember information. High doses of alcohol can cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses may produce similar effects.

Chronic. Repeated use of alcohol can lead to dependence, in which case sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations and convulsions. Alcohol

withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs, such as the brain and the liver. Some studies suggest that brain cells are actually destroyed permanently by high levels of alcohol.

Controlled Substances

Marijuana: Marijuana and related compounds are ordinarily used to encourage relaxation or to produce an altered sense of reality. Marijuana is usually smoked, and it is toxic to the lungs. Disorders of memory, including loss of memory and of mood, including apathy about life, school or work, often occur in chronic users.

Medical Marijuana: High Point University acknowledges that other states have different laws in regards to the medical and personal use of marijuana. However, the possession and use of marijuana is illegal under North Carolina and Federal regulations. Marijuana is considered a controlled substance. Students who are found in possession with or without medical document will be subject to full sanctions as outlined in the Guide to Campus Life.

Cocaine (stimulant): Cocaine, crack and related forms are usually used for stimulation or because they produce a sense of euphoria. All forms of cocaine are highly addictive, producing a habit that is extremely difficult to abandon. Criminal activity to support the habit often results. In some individuals, cocaine may produce fatal cardiac rhythm disturbances.

Amphetamines (stimulants): Amphetamines and their derivatives, "crystal" and "ice," are used for stimulation. These compounds are very addictive and may produce psychotic and violent behaviors.

LSD and PCP (hallucinogens): These chemicals are used to produce "altered states," in an effort to escape reality. They are very dangerous and can cause psychosis.

Valium, Barbiturates, et cetera (depressants): These and similar prescription drugs are ordinarily used for their sedative or hypnotic effects. Some of these drugs are highly addictive, and others can cause seizures (convulsions) in individuals who take them over long periods of time.

Heroin, Codeine, et cetera (narcotics): These are some of the most addictive substances known. They produce a high or euphoria. Withdrawal can produce convulsions or even coma. Overdose is common and can result in death. Persons who use needles to support consumption are in a high-risk group for infection with human immunodeficiency virus, believed to be the cause of AIDS.

Other: Many medications and drugs, including those which are prescribed for you, have the potential for abuse.

ANNUAL DISCLOSURE OF CRIME STATISTICS

Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 USC § 1092(f)) requires colleges and universities across the United States to disclose information about crime on and around their campuses. The High Point University Security maintains a close working relationship with all police departments where High Point University owns or controls property to ensure that crimes reported directly to the police are reported to Security and documented in the Annual Security Report.

High Point University Security collects the crime statistics disclosed in the charts through a number of methods. Security dispatchers and officers enter all reports of crime incidents made directly to the department through a computer-based incident/records management system. After an officer enters the report in the system, it is reviewed to ensure it is appropriately classified in the correct crime category. The Compliance Officer periodically examines the data to ensure that all reported crimes are recorded in accordance with the crime definitions outlined in the Safe Campus Act Handbook. In addition to the crime data that Security maintains, the statistics below also include crimes that are reported to various campus security authorizes, as defined in this report. The statistics reported here reflect the number of criminal incidents reported to and by the various authorities. The statistics reported for the sub-categories on liquor laws, drug laws and weapons offenses represented the number of people arrested or

referred to campus judicial authorities for respective violations, not the number of offenses documented.

ANNUAL FIRE SAFETY REPORT

Annual Fire Safety Report

The High Point University Security Department publishes this fire safety report as part of its annual Clery Act Compliance document, via this document, which contains information with respect to the fire safety practices and standards of High Point University. This report includes statistics concerning the number of fires, the cause of each fire, the number of injuries and deaths related to a fire, and the value of the property damage caused by the fire. The compliance document is available for review 24/7 on the High Point University Security webpage, and a physical copy may be obtained by making a request to the High Point University Security Department (either in person or by phone) (336-841-9112).

Overview

The Higher Education Opportunity Act (Public Law 110-315) became law August 14, 2008, and requires all US academic institutions to produce an Annual Fire Safety Report outlining fire safety practices, standards, and all fire-related on-campus statistics. The following public disclosure report details all information required by this law as it related to High Point University.

General Statement of University Owned/Controlled Student Housing

At High Point University, all residence halls are protected by a fire alarm system which is monitored 24/7 by an outside alarm-monitoring company. HPU Security also receives notification of the alarms via dispatch software. Newer residence halls are also equipped with emergency generators that are designed to automatically activate following a power loss. Generators will operate the lighting and fire alarm, everything else should operate normally during power loss.

Life-safety equipment, including fire extinguishers, exit signs, emergency lights and fire doors, are inspected monthly by trained individuals who then report deficiencies to trained technicians. Records of inspections are retained for reference and compliance purposes. Pursuant to NFPA 10 standards, fire extinguishers are inspected and serviced annually by a certified outside company.

Fire and life-safety features of the buildings shall be in compliance with all applicable standards of the National Fire Protection Association, or according to the Authority Having Jurisdiction (AHJ). The High Point Fire Department Inspections Division conducts annual inspections for all residence halls. Some buildings may be inspected more or less frequently as deemed appropriate by the Authority Having Jurisdiction. Upon completion of the annual inspection, the Security Department creates and tracks work-orders for remediation, and communicates the completion of the repairs to the High Point Fire Department.

In the event of a fire, High Point University will communicate and coordinate with the High Point Fire Department in the investigation of the incident.

Annual Fire Safety Report Definitions (as defined by the US Department of Education)

On-Campus Student Housing Facility: Any student housing facility that is owned or controlled by the institution, or is located on property that is owned or controlled by the institution, and is within the reasonably contiguous geographic area that makes up the campus.

Fire: Any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.

Fire Drill: A supervised practice of a mandatory evacuation of a building for a fire.

False Alarm: The building's fire alarm system was intentionally activated when no fire or danger existed, or the system malfunctioned.

Unwanted Alarm: The fire alarm system was activated as it was designed to do, though the ultimate cause of the alarm was false, i.e. dust activating a smoke detector.

Fire-related injury: Any instance in which a person is injured as a result of a fire, including an injury sustained from a natural or accidental cause while involved in fighting the fire, attempting rescue, or escaping from the dangers of the fire. The term "person" includes all members of campus (students, staff, faculty), visitors, emergency responders (including High Point Fire Department fire fighters), or any other individuals.

Fire-related death: Any instance in which a person is killed as a result of a fire, including death resulting from a natural or accidental cause while involved in fighting the fire, attempting rescue, or escaping from the dangers of the fire, or if the individual dies within one year from injuries sustained from the fire.

Fire Safety System: Any mechanism or system related to the detection of a fire, the notification and warning resulting from a fire, or the control of a fire including:

- Sprinkler or other fire extinguishing systems (i.e., kitchen hood suppression systems)
- Fire Detection devices (i.e., system smoke detectors, heat detectors)
- Stand-alone, battery-operated smoke detectors
- Devices intended to alert individuals to the presence of a fire (i.e., pull stations, horn/strobes)
- Smoke-control and reduction mechanisms (i.e., reverse exhaust HVAC systems, etc.)
- Fire doors and walls that reduce the spread of fire

Value of Property Damage: The estimated value of the loss of the structure and contents, in terms of the cost of replacement in like-kind and quantity, including:

- Contents damaged by fire
- Related damages caused by smoke, water, and overhaul
