Community Affairs Meeting

Senior Class President – Alex Nelson

Hospitality team supervisor stopped and asked why we as students do not go to the Point for lunch. Can we have a discussion on this? What can they do to make that more of a lunch spot for us?

Discussion:

Junior Class Representative - Jessie Giaqunto

I do not like to eat fried food for lunch and I would like the salads to be updated on the menu and then I would definitely eat there for lunch. Maybe some fruit or grilled chicken added to the menu!

Freshman Class Representative – Unknown

I do not eat there during lunch because it is a magic meal, which I only have seven of a week, so maybe if we had a swipe option there that would change something.

Unknown -

Fried food makes you un-relaxed and it takes 15-20 for your food and everyone is often in a rush for lunch

Unknown -

Café for lunch for caffeine or something there

Academic Chair – Patti Suchan

It’s not what they offer or do not offer, its what others locations offer and the convenience.

Student Services Diversity Chair - Mayeesa Mitchell

I think it is a time thing between classes because it takes almost 30 minutes

Senior Class Representative - Molly Phalen

I don’t think the point is doing anything wrong I think it is when it is during the lunch time, students prefer the farmers market swipe and convenience over a magic meal and waiting a long period of time.

Sophomore Class Representative - Delaney Crampton
I don’t think it’s a time thing, I think it’s that the options are all fried – the sides are all fried.

*Unknown*

The Bakery closes at 8pm and the Point doesn’t close until 12am so I think maybe if The Bakery was open later it would change something.

*Freshman Class President - Austin Baker*

I have had a lot of people come up to me asking for gluten free pasta in The Bakery. Can we do something for that?

*Unknown organization - Laura*

What happened to NSLS? A couple hundred people paid to be in it and get inducted and it has kind of disappeared. Can we look into that?

*NPHC Senator – Shirley*

The president of NSLS graduated and we haven’t heard anything since so I will look into it for you!

*Senior Class Representative - Molly Phalen*

The café still doesn’t have soymilk. Also, why is SGA spending money on paper on the purple Friday cards? At first it was catchy and interesting and now it is almost badgering people? Could you just explain to us how effective this has been or where you’d like to go with this, this year?

*President - Greyson Whitaker*

Yes, the $500 is used for colour printing of the purple Friday cards. The money has not all been spent and what is not spent will get put back into our account for something else. We are working with other departments on campus to see what they are doing for purple Fridays.
*Sophomore Class President - Haley McKewon*

I was wondering how to improve on student athletics specifically and the two interactive boards in Wanek, can the one to the left be turned into something sports interactive? Maybe all the teams, STATS, videos, something like that? It is right next to the Point, which is a sports bar.

*Sophomore Class Representative - Delaney Crampton*

I am on IFC, and the athletic director said that we were not allowed to use those up until last year but we are now able to use those once basketball starts in the winter.

*Student Services Diversity Chair - Mayeesa Mitchell*

Does anyone know where the boards went that advertised games across campus?

*Unknown Organization - Laura*

They are limited on those on the amount that they are allowed to put up because of the look of them apparently.

*Unknown*

Athletics are not advertised on the official High Point Twitter account. Big schools do that so I think that would be something good

*Sophomore Class President - Haley McKewon*

Could we throw Instagram into that too?

---

*Senior Class Representative - Molly Phalen*

Why do our magic meals restart at 12am and not 2am now?

*Senior Class Representative - Molly Phalen*

It still changes at 2am!
