REVOLUTION IN PARIS, ART AT THE TURN OF TWO CENTURIES
ACADEMIC OVERVIEW

Find inspiration in the “City of Light”, Paris, France! See Paris through the lens of a camera and see what inspired the famous photographer of Paris, Eugène Atget. While you are there you’ll experience and photograph the Paris streetscape, see the city from the Eiffel Tower, and explore the Palace of Versailles! This course fulfills the Art Studio requirement and the Global Studies Requirement.

ABOUT THE CITY

Paris remains a stage upon which cultural life is played. Its landscape is beaded by such sites of learning as the Sorbonne, Collège de France, and Collège International de Philosophie. Its famous museums and galleries display a vast wealth of artifacts that continue to both inspire and challenge artists and observers. Against the backdrop of its millennia of history, cut through by the river Seine, spring hundreds of cinemas, a multitude of book shops, historical and current graffiti, cultural cafés, and concert halls.
