Rationale for above changes

We have had to make adjustments to course offerings for the Education Studies minor due to low enrollment. While maintaining the opportunity for a student to earn a minor through taking a variety of Education courses, broadening the types of courses that a student takes in the minor also allows for students to earn the minor based on a variety of potential interests. The minor will stay at 20 hours, these curricular changes simply allow for more choices for a student minoring in Education Studies.

Does this change affect any other departments, schools, or programs besides your own? If so, please describe your consultation process with affected parties.

No
