Begin Form**Today's Date**

09/13/2023

Your Name

Matthew Kuennen

Your Email:mkuennen@highpoint.edu**Are you a Department Chair?**

No

Department Chair Name

Dr. Kevin Ford

Email address of your Department Chairkford@highpoint.edu**By checking below, I certify that my department chair has seen and approved the course revisions that are in this proposal**

Yes

Please select the appropriate school overseeing this proposal:

Health Sciences

Which semester is this course to be taught as proposed?

Fall 2024

Are you submitting multiple courses for revision from the same department?

B - Course Revision Form V. 7.2022 : Entry # 2965

No, just one

Please list all of the courses that you are submitting revisions for:

Course Prefix	Course Number	Course Title
EPY	4900	Environmental Exercise Physiology

What would you like to revise?

- Change Course Number (changing level)

Gen Ed & Academic Program Information**Is this a revision to meet new Gen Ed requirements?**

No

Is this course part of an academic program?

- This course does not currently fulfill academic program requirements

Does this course, as revised, include any community engagement?

No

Is this course part of GoGlobal?

No

Does this course count towards a major or a minor?

Yes

Please list the course(s) and whether they are required or electives for the major/minor.

Course Prefix/Number	Name of Major and/or Minor?	Required or Elective?
EPY 4900	Exercise Science (B.S.)	Elective

Is this course cross listed?

No

Choose the department designator for your course from the list below.

EPY

Current course number

4900

Current course title

B - Course Revision Form V. 7.2022 : Entry # 2965

Environmental Exercise Physiology

Revisions to course number, title, credits, prerequisites**What are the changes to the course number?**

The proposed change is from EPY 4900 to EPY 3250. There are three primary rationale for this change: 1. When the course was first proposed, it was conceived as a 4000-level course, but in practice it is 3000-level, and the level should be adjusted to reflect this. 2. As currently delivered, the course is a natural progression from our EPY 2200 (Exercise Physiology) course. It applies exercise physiology course knowledge to a focused aspect of the discipline, allowing students to take their 2000-level understanding and apply it to environmental extremes at the 3000 level. 3. The current course number (4900) implies a culminating experience, which it is not. With its current inaccurate level and number, it is possible that junior-year students may make the erroneous assumption that they are not prepared to take the course, thus waiting until the following year to register. On the contrary, students would benefit most from taking the course in close proximity to exercise physiology.
