		techniques and fraud examination methods. The course will also cover multiple cybercrime components utilized by cyber-criminal networks. Four credits.	
Rationale for above changes			
The request to rename and reorganize the previous course is being made to better equip HPU graduates with an additional marketable skillset sought by law enforcement agencies and financial institutions. The request is also being made to more adequately align relevant curriculum sought through a free partnership with the Association of Certified Fraud Examiners (ACFE). The partnership will allow HPU graduates to adequately prepare for an industry relevant and sought after Certified Fraud Examiner (CFE) certification. The no cost partnership would allow HPU graduates an opportunity to take the CFE examination at a reduced cost.			
Does this change affect any other departments, schools, or programs besides your own? If so, please describe your consultation process with affected parties in the box below.			
The proposed request or change does not affect any other department, school, or academic program at HPU.
