

C - Small Curricular Revisions : Entry # 3397

Today's Date

12/03/2024

Your Name

Claire McCullough

Your Email:

cmccullo@highpoint.edu

Department Chair Name

Claire McCullough

Email address of your department chair

cmccullo@highpoint.edu

By checking below I am certifying that my department chair (named above) has seen and approved the courses that are included in this proposal.

Yes

Please select the appropriate school overseeing this proposal:

Engineering

Does this proposal correspond to a particular term?

as soon as possible

Which category does this change fall under?

- Distribution requirements - major

Name of Major or Minor that you are revising distribution requirements for:

Electrical Engineering and Computer Engineering

Distribution Requirement Changes

What is being changed?	Rationale for change (brief)
Replace the requirement for ECE 1012 with ECE 1012 OR (MME 1005 AND MME 1010)	ECE 1012 is substantially equivalent to this combination, and will allow students to more easily switch majors

Rationale for above changes

ECE 1012 is substantially equivalent to the combination of MME 1005 and 1010. Putting in this option will allow students to more easily switch majors from general or mechanical or mechatronics engineering to electrical or computer engineering. This will be helpful as many students come in as freshmen without a clear idea of what kind of engineers they want to be, and many change majors in, or after, the freshman year.

C - Small Curricular Revisions : Entry # 3397**Dean Review****[DEAN] I approve/deny this proposal**

Approve
