Please describe the rationale for this change

The course is currently only repeatable once and has operated on an honor system outside of this due to how the course was originally created and because this is also a team that competes. This means students do not always receive credit for their work. They currently receive 2 credits in the Fall and none in Spring. They also can only repeat this once the following Fall, for example, again not receiving credit in Spring. To provide students the opportunity to receive credit each semester and balance the change to be repeatable an unlimited number of times (for most students this would be 6-8 semesters), the proposed change to 1 credit is being made. In addition, this will allow students a better path to have this unique course be more impactful for their graduate and career outcomes. This change will not impact anything else within the major or minor, as it does not currently count toward the major or minor as required or an elective. Note: We are proposing an additional major change in the near future for a category where this could count for 2 total credits toward the major. That said, this change is important irrespective of this approval due to its currently operational issues.
