Psychology	PSY 2000	Gen Ed
Abnormal Psychology	PSY 2250	elective
Developmental Psychology	PSY 2300	elective
Sociology or Anthropology	SOA 1010/ SOA 1020	Gen Ed

Note. Each OT program has its own unique set of prerequisite courses for application. This matrix was designed to assist students in translating the most common OT prerequisite requirements, BUT does not account for every OT program. Student should review the prerequisite course work required for their targeted OT programs to best understand application requirements.

1. A statistics course out of the PSY department is open only to students who are doubling majoring or minoring in PSY.

2. Due to the heavy PSY influence in the OT pre-requisites, a minor in PSY is often recommended.

3. Student should develop a plan of study with the support of their academic advisor
