

HIGH POINT UNIVERSITY

Research Administration and Sponsored Programs

September 15, 2021

Subject: GrantForward is now available at **High Point University**

Content: Funding Opportunity Search Portal

Dear Colleagues,

The **High Point University** has subscribed to GrantForward Funding Opportunity Search and Recommendation service, which is open to all members of our institution. We invite you to sign up to use the service to keep your awareness of funding opportunities.

GrantForward (see quick [overview video](#)) helps you find grant opportunities that suit your research needs with a database of grants from over 13,000 sponsors which is updated daily. You can search for grants by keywords and advanced filters, save your favorite searches for new grant alerts, and save your favorite grants to keep track of them. GrantForward also recommends grants to you based on your CV, past publications, and research interests.

You can access GrantForward at www.grantforward.com or from our website at [sign up](#). In order to be able to use full search features including saved-search and personalized grant recommendations, please sign up (see quick [demo](#)) for a user account using your **High Point University** email address. We also encourage you to take a few minutes to create your "Researcher Profile" (see quick [demo](#)) to start receiving grant recommendations!

Attached is a Researcher Welcome Guide for you to be able to quickly get started with using GrantForward. You can also find additional tutorials and guides on [GrantForward Support](#) page, or view the video tutorials at their [YouTube Channel](#). If you have any questions about the service, please contact me or support@grantforward.com for assistance.

Respectfully,

Rachel Kinney, JD, CRA
Director, Research Administration and Sponsored Programs
High Point University
