*Survey questions:* Below are questions the Survey Research Center fielded for this study. They represent the text as they appeared to respondents. Statements in brackets are rotated to ensure respondents do not receive a set order of response options, which maintains question construction integrity by avoiding respondent agreement based on question composition. Example: [agree or disagree] or [disagree or agree]. Items that are rotated for the same reason are noted. Percentages may not add to 100 because of rounding. Percentages less than one percent are denoted with a \*
